★ ★ ☆ Python

★ ☆ ☆ HTML

### Assessment

#### Q1. Why should you be hired for this role?

As I am a pursuing UG student, I want to learn the things from work, I want to learn the experience. I am a fresher, but I have all the skills listed in the job description, and I'm confident I can make an immediate impact in your works and company. Creativeness is the key thing in this work and I am good at that, I have experience with photoshop for 3+ years and with illustrator for more than a year (you can check out my works on my Behance page). I am also very good at communicating with people. If chosen for this role, I will definitely work to deliver high-quality work for the continued success for your organization.

#### Q2. Are you available for 2 months, starting immediately, for a full-time work from home internship? If not, what is the time period you are available for and the earliest date you can start this internship on?

I am available full time here for the next 2 months, except for the exams at the end of October
